Paul Gee

**By email:** [gasnolarservices@gmail.com](mailto:gasnolarservices@gmail.com)

Dear Mr Gee

**Email dated 6 March 2015**

I refer to your email to the Plumbers, Gasfitters and Drainlayers Board of 6 March 2015. The matters raised in your email have been considered and, in response, I advise:

- a. An investigator has already considered Mr Darnley's involvement in the explosion at the Milton Street fish and chip shop.
- b. Your complaint about Mr Darnley's failure to register the pink copy of gasfitting certificate 345138 has already been addressed.
- c. Your complaint about the lack of "gas leak test" information on gasfitting certificate 345138 has already been addressed.
- d. The issue of gasfitting certificates at the Milton Street fish and chip shop has already been addressed.
- e. The issue of the risk of Legionnaires disease in respect of a property Mr Darnley carried out work at has already been addressed.
- f. The issue of the gasfitting certificate for 5 Powick Street has already been addressed.
- g. There is no basis for the claim that Mr Darnley was "gifted" his craftsman gasfitter's registration.
- h. Your concerns about the Board's administration of the gasfitting certificate system have already been addressed.

Yours sincerely

Craig O'Connell  
**Acting Registrar**
